SICKNESS, PAIN and DEATH

Legitimately result as penalties for violations of natural laws, from which none escape.

The faded cheek, the pale and wan features, the dull eye, the clouded intellect, the deep heaving sigh, the feeble and emaciated frame, the dejected brow the tottering gait, all indicate previous transgression of law. Knowing that "procrastination is the thief of time," all intelligent being apply for some remedy as soon as circumstances permit; while those who do not act upon the principle that "delays are dangerous," generally linger, lose more time and pay more money.

Thousands of mothers and daughters, in all stations and conditions of life, are suffering, lingering and dying from the effects of some dreaded and dreadful

FEMALE COMPLAINT

That claims its victims throughout the length and breadth of the ladd.

Many females suffer in some way at each monthly period; some gris are in great peril at the commencement of menstruction, while older ones dread its decline at the "turn of life." Some times the menstrual flow is too much, or too lattle, or may be attended with pain; may be irregular or entirely cheeked, or changed in appearance, or attended with other distressing symptoms. Leucorrhoes, or the "Whites," frequently drains the system, or alceration of the womb may create pain and cause rapid prostration.

Fallig of the womb is an exceedingly common complaint, giving much trouble and distress, which, under ordinary treatment, is difficut to cure. cure.

Hysteries, Green Sickness, Irritability of the Wond, and other serious and fatal complaints follow the female sex throughout life. Lives there a medical gentleman who has or can relieve the fair sex of the above troubles? Not many, Is there no combination of remedial agents that will come to her rescue? We answer, yes,

ENGLISH FEMALEBITTERS

The only lacknowledged Uterms Tonic and Fermale Regulator knows, will cure all those complaints above mentioned in an incredibly short time. The Bitters at once arouses, strengthens the womb to its natural condition, removing obstructions, relieving pain and regulating the monthly period. Yonder stands a pale, feeble and languid girl, just bursting into womanhood; she is the pride of all, but hark! she silently steals a pickle, cats chalk or a state pencil; no appetite for food; she turns with adult eye and seeks solitude; her eye no longer sparkles, her merry langh is no longer heard ringing through the air, she mopes about with bloodless lips and gum, with headache, palpitation, constipation, awimming of the head, cold feet and hands, inclancholy; she has a coaled tongue, offensive breath, and a host of other evils too numerons to mention.

When neglected all these symtoms become aggravated, there is sick stomach, heartburn, a dark into settles under the eyes, the legs and ankles are swollen, the hair losses its gloss and falls off, there is britteness and splitting o the finger nails, swellen abdomen, extreme nervourness, pains and aches, dry cough, hysterical fits, rapid prostration are thus afflicted, send at once for a bottle of English Female Bitters and be cured. Its effects are magical in such complaints. Surely no mother will postpone and delay this duty until

DEATH IS AT THE DOOR

In all these complaints the system evidently shows a want of red blood, and Mr. Churchill, sin his work on Diseases of Females says: "Bearing in mind that the blood is remarkably deficient in red corpuscles, and the known property of iron to correct this condition, theory suggests it as the most to be relised on, the best of which is the Cutrate of Iron." Citrate of Iron enters largely into into the composition of English Female Bitters, combined with powerful vegetable tonics of rare qualities.

combined with powerful vegetable tonics of rare qualities.

Among the mountains of Tennessee and the piney woods of Mississippi, in found a certain hard and finty root, which has been in secret use by some old midwives for many years, possessing magic powers in regulating and restoring all females suffering with any affection of the womb. This root we have obtained, giving it a fair test in our practice, and it is now one of the principal ingredients in these Bitters. Other powerful uterine and general tonics also enter into its composition. We also add Leptandra or Black root, sufficient of act upon the liver and keep the bowels open.

BLOOMING YOUNG GIRLS

Middle-aged matrons, those at the critical period and the aged grandmother, are all cured by the use of our English France litters prescribed and whed by physicians all over the country.

If you are troubled with failing of the Womb, attended with a sense of weight and bearing down pain in the hack and side, and other attendant evils, English Fernale Bitters will give entire relies

Those at the "turn of life," mothers after confinement, and all others (male or female) who are convalescents from any protracted or debilitating complaint, who gain strength slowly, and whose digestion a slow and imperfect, will find these Bitters the very thing their system demands. It gives a powerful appetite, aids and assists digestion, arouses the liver, strengthens mentally and physically, and fills the whole system with pure crimson blood coursing through its channels.

Common Grog Shop Bitters

Empty Bitter Bottles, of various styles, can be found around almost every dwelling and caban throughout the land. Their taste is pleasant, and are asiverised to cure almost every disease, while the manuscurers knew they possess no med-cinal properties whatever. They are so man-disquises for exceedingly common beveragey which do not, nor cannot possibly cure any one. which de not, nor cannot possibly cure any one.

Beware of these pleasant bitters in quart bottles, they contain a sting for your vitals, and he who buys them carries a "toper's" grog into his house. One man who knows nothing about medicine, save his ligh bottles of common staff will oure chills and fever, rheumatism and consumption; another, whose bottle is very fancy, cures all impuraties of the blood, makes old men young, casts out devils, restores sight to the blond, and numerous other miracles; while yet another, who presumes every man a drunkard, proposes to cure colla, ingrowing nails, yellow tever, heart disease and love-sick maid in it. We know they make no such cures, we know the people at large are deceived and swindled, and as we ple at large are deceived and swindled, and as we desire to ventilate these common humbings, make the following challenge to one she all.

JOHN BULL CELEBRATED SYRUP

THE proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the sag, extant, speeds and personned error of Ague and Fever, or Chilis and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudeat, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the lowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of Bull's Vegetable Family Filis will be sufficient.

HAVE received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following, from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications in have ever received. Dr. Clement, knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Heavy what the Doctor says of Bull's Worm Destroyer:

Villanow, Waiker County, Ga.,

Dr. John Bull-Dear Sir: I have recent given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished-for effect. I am doing a pretty large county practind, and have daily use for some article of the kidy I am free to confess that I know of no remeso recommended by the ablest authorities that is recertain and speedy in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get it upon easy terms, I shall use a great deal of it. I am sware that the use of such articles is contrary to the teachings and practice of a great majority of the register line discarding a remedy which we know to be sufficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and every means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than my self have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousand of worthless nostrums that flood the county, that purport to cure all manner of diseases to which flesh is helf Please reply soon, and inform me of your beptermy.
